

Orbita Lithium Batteries

5-year battery life

All battery operated CASSETTA winders are fitted with high-energy, factory installed, LITHIUM batteries that provide approximately 5-years of battery life. In addition, each CASSETTA winder carries an iron-clad 2-year product guarantee.

Replacement

When the time comes to replace the Lithium batteries in your CASSETTA winder, you may purchase replacements directly from us. You may also purchase locally if available. Should you purchase locally, be sure the battery specifics match. 3.6 Volts, 19,000 mAh.

INSTRUCTION GUIDE

Rotorwind Casetta Winder/Module

Congratulations!

The Casetta user guide will help take you through the initial set up of your new watchwinder. Your Casetta is factory-fitted with 2 ORBITA Lithium "D" cell batteries which provide a minimum of 5 years guaranteed operating life. If you purchased the standard model, your winder is totally enclosed in a suede-lined wood case with a hinged door to provide complete protection for your valuable watches.

Included In This Box

1. Casetta Watchwinder
2. Cup Assembly
3. Standard Cushion
4. Lithium Batteries
5. Rubber Feet (Case only)
7. Warranty Registration
8. Instruction Book

Getting Started

Turning Power On

1. Remove the mounting cup and cushion.
2. Mount watch on cushion and slide cushion into cup.
3. Slide the cup on to the drive shaft.
4. Remove protective film over on/off switch.
5. Turn the power on using power switch.
6. Please be patient. There may be up to a 5 second delay before the winding cycle is initiated.

Mounting Watch on Cushion

1. With the bracelet or strap of the watch **closed**, squeeze and slide the cushion through the watch. The back of the watch should rest against the Orbita logo and the strap should lie on the flat portion of the cushion.

Proper Casetta Orientation

To wind properly, the Casetta must be orientated as shown to the right. However, case can be hinged on the left or the right. 6 rubber feet are included to help protect the case finish.

The Casetta comes with 6 rubber feet to help protect the case finish. Please see diagram to the right for proper foot placement.

Battery Replacement

When the time comes for battery replacement, the back panel will have to be removed. This is done by unscrewing the 4 screws on the back plate. The batteries are housed to the right of the interior frame. It is important to pay attention to battery polarity. Both batteries are inserted with the positive (+) side down.
